

# Indoor cabinets

## InD SC

### Description

The InD support cabinet is a floorstanding sheet metal cabinet for Delta's modular CellID products and battery shelves. Cable entry is from the top.

The InD SC offers three size options: 800, 1200 and 2000. It is possible to mount the SC 800 on top of another. Building example: SC 1200 defined as flat packed battery rack and SC 800 as a complete build power system for split delivery. The simplified construction enables the possibility to assemble the unit at its final destination.

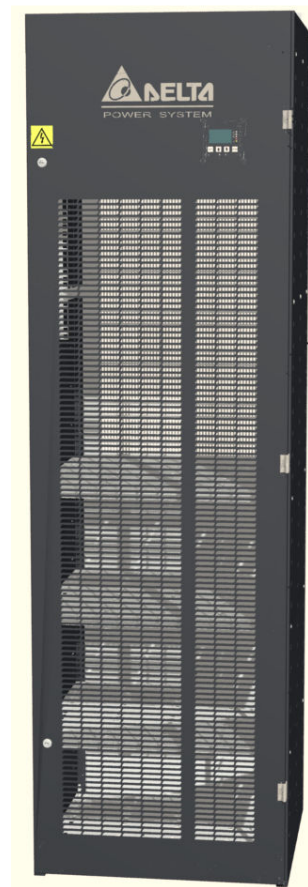

19 inch mounting for the equipment gives the possibility to configure modular scalable solution within the dimension limits. Build your own system. The modular items of the cabinet are: battery shelves, blank panels, display module and door. Cabinet is designed to support four 12 V 190 Ah batteries in one shelf, max. four shelves in one cabinet.

### Main features

- Dimensions (H x W x D): max. 2000 x 600 x 600 mm
- Door option
- Battery shelves option
- Delivered in flat package optionally
- IP 20 protection class

### Applications

- Network base stations
- Wireless applications
- Fixed line applications, data communications

*Our product portfolio includes both indoor and outdoor power systems building on extensive R&D, modular production and customization. Indoor power systems are categorized to CellID and CabD. The CellID indoor support cabinets are available in wall mounting and floor standing designs.*
